

# WATERCARB-L/O

## High Performance Powdered Activated Carbon

---

**Description** Watercarb-L/O (WCL/O) is a high performance lignite based powdered activated carbon with the addition of an anti-scaling additive.

---

**Applications** WCL/O demonstrates exceptional taste and odor and, TOC removal in the treatment of potable water. WCL/O meets or exceeds AWWA B600 specifications and is certified to ANSI/NSF Standard 61.

---

**Specifications / Properties**

Iodine Number	500 mg/g min
Moisture	8 % max
Bulk Density	0.4 - 0.7 g/cc
Passing 325 Mesh	90 % min

---

**Manufacturer** Standard Purification is an innovative activated carbon manufacturing company focused on practical, environmentally-superior solutions to customers' needs. We develop and manufacture custom-tailored activated carbon products for removing contaminants from liquids and gases. Standard Purification utilizes reclaimed raw material in many products, and uses only heat and steam for carbon activation.

---

**Delivery** Watercarb-L/O is available for delivery in 50 lb bags palletized, and in bulk *via* polypropylene bulk sacks, pneumatic tanker trailer and pneumatic rail car.

---

**Safety and Handling** Wet activated carbon removes oxygen from the air. In closed, or partially closed containers and vessels, oxygen depletion may reach dangerously low levels. Workers should follow appropriate procedures when entering confined spaces containing activated carbon.
